The exchange rate of US\$1=S\$1.5874 (31.12.2005: US\$1=S\$1.665) was used for translating assets and liabilities at the balance sheet date and US\$1=S\$1.5961 (2005: US\$1=S\$1.6607) was used for translating the results for the nine months ended 30 September 2006.

The financial results for the nine months ended 30 September 2006 and 30 September 2005 have been prepared in accordance with the International Financial Reporting Standards ("IFRS"). These results have not been audited or reviewed by the Auditors.

\* The basis for calculating underlying earnings is set out in Note 5 of this report.

## CHAIRMAN'S STATEMENT

### Overview

The residential property market in Singapore continued to perform well as prices rose 2.7% in the third quarter, resulting in an increase of 6.1% for the first nine months of 2006. The price rises continued to be driven by demand from overseas buyers for high-end condominiums which have risen over 30% this year.

### Group Performance

MCL Land recorded an underlying profit of US\$12.1 million for the nine months ended 30 September 2006, compared with US\$13.6 million for the corresponding period in 2005. No development profit was recognised during this period and the profit arose primarily from a net gain of US\$8.3 million from land sales in Malaysia, together with the write-back of tax provisions of US\$2.3 million and of a provision in respect of a development project of US\$1.0 million. The 2005 comparative largely represented a write-back of provisions for foreseeable losses in respect of development projects of US\$12.8 million.

In the absence of exceptional items, net profit attributable to shareholders for the period was also US\$12.1 million, compared to US\$14.4 million in the same period in 2005.

Shareholders' funds were US\$416.2 million at the end of September 2006, up from US\$396.3 million at the prior year end. The Group's net debt increased to US\$273.1 million from US\$43.7 million during the nine months following the acquisition of development sites. This resulted in net gearing of 66% at 30th September 2006 compared with 11% at 31 December 2005.

### Dividends

The Board is not recommending the payment of any interim dividend for the nine months ended 30 September 2006 (2005: nil).

### Properties

The Group continued to make good progress with the pre-sales of its Singapore development properties, with some 99% of the units being sold as at 30 September 2006. All 421 units of The Calrose and 129 units of Mera Springs have been fully sold, and the two projects are scheduled to complete in 2007 and 2008 respectively. The 400 units in The Esta and 95 units in The Grange, a 53.5% joint venture project, are also almost fully sold, well in advance of their scheduled completion in 2008. Work on the development properties is progressing well. MeraPrime is expected to complete by the year end, and will contribute to the Group's results for 2006, while The Metz, The Calrose and Mera East are due to complete in 2007.

The Group's joint venture development with the Landmarks Group in Malaysia has also performed well. Nearly all 94 units in Desa Villas and 436 units in Desa Putra have been committed, prior to their planned completion by end of this year. The 300-unit shops at Kuala Lumpur Suburban Centre have also been well received with some 86% sold to-date.

Construction is in progress for the first two phases of the development of 110 terrace houses and 41 bungalow units in Seremban, Malaysia; a joint venture development with Sunrise Berhad. So far, 43 terrace houses and 2 bungalow units have been sold.

### Acquisitions

Following receipt of the necessary approvals from The Strata Board, the Group's purchase of Boon Teck Heights at Boon Teck Road is scheduled to complete in January 2007.

With this latest acquisition, the Group will have acquired seven sites since 2005 for a total land cost of US\$271.8 million. These sites provide a maximum permissible gross floor area of 1.2 million square feet to be developed over the next few years.

### Prospects

The prospects for the residential property market in Singapore are expected to remain positive as economic growth is sustained. The Group's overall performance for the full year should benefit from completion of MeraPrime in Singapore and Desa Villas and Desa Putra in Malaysia.

**1 Basis of preparation**

The financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS") and are consistent with those set out in the 2005 annual report.

In 2006, the Group adopted the following amendments and interpretation to existing standards which are relevant to its operations.

IAS 39 (amended 2005)	Cash Flow Hedge Accounting of Forecast Intragroup Transactions
IAS 39 (amended 2005)	The Fair Value Option
IAS 39 and IFRS 4 (amended 2005)	Financial Guarantee Contracts
IFRIC 4	Determining whether an Arrangement contains a Lease

There have been no changes to the accounting policies described in the 2005 annual report as a result of adoption of the above amendments and interpretation.

The preparation of financial statements in accordance with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from these estimates.

**2 Reconciliation between IAS 17 and IAS 40 and FRS 25**

A reconciliation on the differences between IAS 17 Leases ("IAS 17") and IAS 40 Investment Properties ("IAS 40") and Singapore's FRS 25: Accounting for Investments is to be disclosed as required by the Accounting and Corporate Regulatory Authority in approving the Company's application for the adoption of International Financial Reporting Standards.

The difference between IAS 17 and IAS 40 and FRS 25 arises from the accounting treatment of valuation changes in investment properties. Under IAS 40, investment properties are carried at fair value and changes in fair values are recognised directly in the profit and loss account. This contrasts with FRS 25 where the investment properties are carried at revalued amounts. The net surplus or deficit on revaluation is first taken to a revaluation reserve account unless the revaluation surplus is insufficient to cover the deficit, in which case, the amount by which the deficit exceeds the available surplus is charged to the consolidated profit and loss account. The surplus on revaluation not utilised at the date of the sale of investment properties is taken to the profit and loss account.

There are no financial effects in adopting these standards for the nine months ended 30 September 2006.
